Speech of Prof Dr. Hasan Shakir Majdi

Al-Mustaqbal University President

In the Name of God the Merciful

"Our Lord, Offer us Mercy, and facilitate our affairs."

Great Truth of God

An era of years has passed, full of care, diligence and dedication, so that our College Path gets so bright, taking Knowledge from its Sources, adopting the Directives of Ministry of Higher Education & Scientific Research as Academic Rituals to be fully carried out with no deviation at all. Within our souls indeed lies a strong desire for the Educational Process in our Country to return sober & bright as it used to be. At the same time, we have been looking at the future with more than two eyes, waiting for a beautiful dream, in which our College would turn into a University so that the horizon of our work and ambitions would expand and keep growing.

Now the dream has become a reality. Due to God's Grace and the efforts of Principled, our College has become an Ambitious Young University, and we have started with the usual enthusiasm to develop a Five-Year Strategy, which begins with qualifying Students and preparing them Scientifically and Educationally, promoting our Teaching Staff Competences, and reinforcing Scientific, Research as well as Administrative Expertise of our Staff so that creativity becomes their Goal and Slogan. After relying on God, Support of our Ministry, and that of our University Members, we shall have what fills our Souls with Joy and Hope to achieve all the Legitimate Goals we aspire to in our next Five-Year Strategic Plan.

Prof Dr. Hasan Shakir Majdi

Al-Mustaqbal University President
